

Watershed and catchment area

Source: GeoVille for World Bank

Product description

- Digital Elevation Model (DEM) supporting the outlining of watersheds & catchments

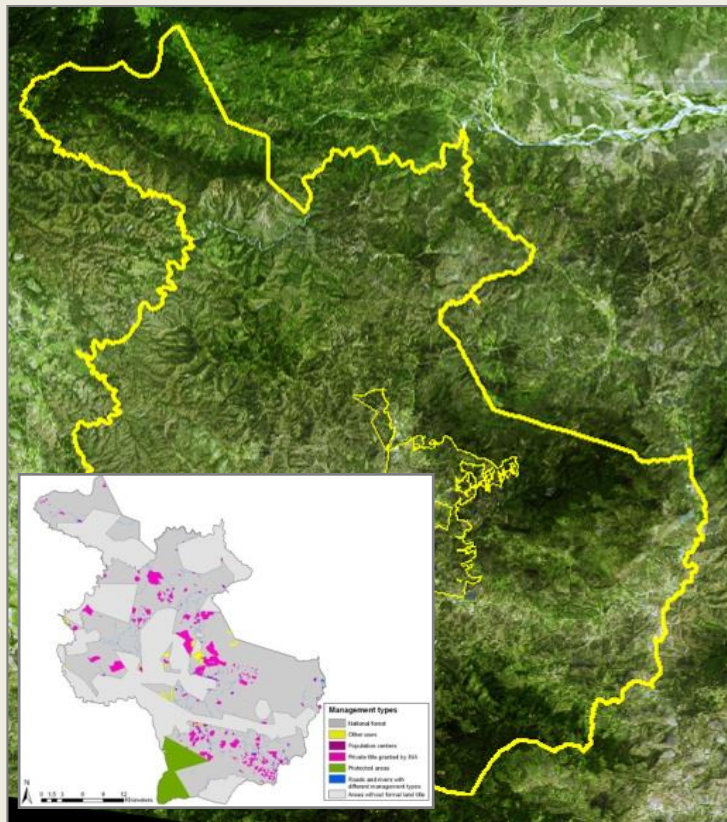

Spatial extent and resolution

- Local to regional
- Meter scale

Benefits

- Characterisation of catchment topography for modelling of hydrological risks and impacts

Project area boundary

Source: GeoVille for World Bank

Product description

- Digital Elevation Model (DEM) for outlining of watersheds & project area boundaries (if not otherwise identified)

Spatial extent and resolution

- Project area and larger
- Meter scale

Benefits

- Homogeneous delineation of project area and pre-stratification
